

16. The apparatus of claim 15, wherein said computer readable program code further comprises:

program code for allowing a user to request more information from said another device; and

program code for providing additional network data to the user, said additional network data being from said another device and being based at least in part on the user's request for more information.

17. The apparatus of claim 16, said program code for allowing a user to request more information from said another device comprises program code for allowing a user to email the request for more information to said another device.

18. The apparatus of claim 15, wherein said computer readable program code further comprises:

program code for determining whether said appliance is in an active mode; and

program code for disabling said apparatus when it is determined that said appliance is in the active mode.

19. The apparatus of claim 15, wherein the at least a portion of said network data comprises an advertisement.

20. The apparatus of claim 15, wherein the at least a portion of said network data comprises network graphical data.
